

IPv6 Technical Summit – 2007 **Karachi-Pakistan**

The Networkers' Society of Pakistan (NSP) is the first national, nonprofit organization for the benefit of everyone involved in the Information Communications Technology (ICT) industry. NSP's mission is to enhance the skills of ICT professionals particularly those who have embarked upon or pursuing a Network and Communication career.

After the grand launching of IPv6 Forum Pakistan last year, we have great pleasure in informing you that NSP is going to organize IPv6 Technical Summit 2007. The mission is to provide technical leadership and innovative thought for the successful integration of IPv6 into all facets of networking and telecommunications infrastructure, present and future. IPv6 Summits are organized by the IPv6 Forum and staged in various locations around the world to provide industry and market with the best available information on this rapidly advancing technology.

You are requested to participate in the sponsorship of this event. There are many ways you can help and support us by contributing reception dinners for the speakers, lunch for invitees and so on. You can also create a sustainable relationship with NSP by being a permanent supporter and sponsor.

Details of the sponsorship packages are attached herewith. We will be happy to provide any clarification that may be required. For further information please contact:
